Art Unit: 2826

## RESTRICTION REQUIREMENT

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1-8, drawn to a packaging of a device, classified in Class 257, subclass 666.
- II. Claims 9-13, drawn to a method of making a packaging device, classified in Class 438, subclass 25.

Inventions I and II are related as combination and subcombination. The Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. (M.P.E.P. § 806.05(c)). In the instant case, said undefined plurality of connection leads could have been formed one at a time or at once in multiplicity as an alternative.

Because these inventions are distinct for the reasons given above and as shown by the above different classifications, the fields of search are not co-extensive and separate examination would be required for examination purposes and the restriction requirement as indicated is proper.

Application/Control Number: 09/383,150
